

MARYLAND GREEN REGISTRY

McCLINTOCK DISTILLING

SUSTAINABILITY LEADERSHIP AWARD WINNER

2023

McClintock Distilling proudly distills gins, whiskies, and vodkas from organic ingredients in downtown Frederick, Maryland.

Environmental Achievements:

- Uses local, organic-certified grains to reduce emissions from shipping and to encourage agriculture practices without chemicals and artificial fertilizers.
- Designed and built a closed-loop cooling system that has reduced wastewater by about 500,000 gallons a year.
- Built a closed loop, insulated steam line to reduce gas demand of boiler.
- Donates spent grain mash to local farmer for use as animal feed. Spent gin botanicals are composted or donated to local restaurants and a local ginger beer company for culinary use.
- Purchases 100 percent renewable energy for all operations.
- Created Gimlets for Green to raise funds for the Tree-Mendous program, which plants trees around the Chesapeake Bay watershed.
