

MARYLAND GREEN REGISTRY

UNIVERSITY OF MARYLAND, BALTIMORE

SUSTAINABILITY LEADERSHIP AWARD WINNER

2023

University of Maryland, Baltimore enrolls over 7,000 students in six nationally ranked professional schools — dentistry, law, medicine, nursing, pharmacy, and social work – and an interdisciplinary Graduate School.

Environmental Achievements:

- Faculty, staff and student teams meet regularly on priority topics including UMB's goal of carbon neutrality goal by 2045.
- Formed an Energy Reduction Team to maximize energy savings through building automation systems.
- Achieved 100% renewable electricity through power purchase agreements and Green-e Renewable Energy Certificates.
- Replaced individual trash bins with conveniently located common waste receptacles to reduce contamination and eliminate the purchase of an estimated 1.5 million individual trash bin liners annually.
- Launched a Green Labs Program to reduce energy, waste, and water use and offered rebates to replace old and underused lab freezers with energy efficient models.
