Mental health provider

*Member since December 2022*

### Management and Leadership

#### **Environmental Team**

*Our environmental team is composed of leadership, select clinicians, and clinical interns. We meet once a quarter and discuss ways to increase environmental efficiency through our products and practices.*

#### **Environmentally Preferable Purchasing**

*For our events, we encourage reusable mugs, cutlery, plates etc. which cut down or eliminate the number of plastic, disposable items we use.*

#### **Environmental Restoration and Community Environmental Projects**

*We have adopted a road by our office and have taken responsibility to clean it 4x per year. We have collected 5 bags of trash and 2 bags of recyclables in one cleaning, anticipating a yearly collection of 20 bags of trash and 8 bags of recycling.*

### Waste

#### **Recycling**

*We recycle all paper and plastic products at our facility.*

**Composting**

*We compost all food and yard waste at our facility, saving approximately 20 pounds per year of trash.*

**Environmental Certification Programs, Awards, and Other Activities**

- Our organization is part of the Baltimore County Green Alliance and participates in activities related tot his alliance.*

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
