Environmental Policy Statement

Epona Engineering is committed to reducing its impact on the environment. We will strive to improve our environmental performance over time and to initiate additional projects and activities that will further reduce our impacts on the environment.

Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to:

- *Comply with all applicable environmental regulations;*
- *Prevent pollution whenever possible;*
- *Train all of our staff on our environmental program and empower them to contribute and participate;*
- *Communicate our environmental commitment and efforts to our customers, staff, and our community; and*
- *Continually improve over time by striving to measure our environmental impacts and by setting goals to reduce these impacts each year.*

Waste

Recycling

Epona Engineering, LLC composts all of the compostable food waste and recycles paper, plastic, cardboard, glass, and metal.

Energy

Energy Efficiency

Epona Engineering, LLC uses compact fluorescent light bulbs rather than conventional light bulbs. This has saved Epona Engineering 9,000 kWh in the life cycle of bulbs and has also reduced the air pollution produced by 13,860 lbs of carbon dioxide. The cost savings is \$1,373 for the life cycle of the bulbs.

Transportation

Efficient Business Travel

In an effort to cut down on vehicle usage we carpool whenever practical.

Fleet Vehicles

Epona Engineering uses a fuel efficient vehicle that gets 30 mpg city/42 mpg hwy.

Water

Water Conservation

Epona Engineering waters the lawn and garden in the morning or evening when temperatures are cooler to minimize evaporation. Epona Engineering also uses low flow faucets and water efficient modern toilets.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
