

Maryland  
Green Registry  
**MEMBER**

The Maryland Green Registry promotes and recognizes sustainable practices at organizations of all types and sizes. Members agree to share at least five environmental practices and one measurable result while striving to continually improve their environmental performance.

Bakery/Restaurant  
Members since August 2023

## Management and Leadership

### **Environmentally Preferable Products and Services**

*We have replaced plastic products with compostable, edible pasta substitutes:*

- *We use fettuccine for our coffee stirrers*
- *We use long, uncut ziti for our beverage straws*
- *We use birch utensils instead of plastic*

### **Environmental Restoration and Community Environmental Projects**

*We work with McDaniel College clubs (Green Life) and fraternities (Sigma Alpha Epsilon) to organize community clean-up and Earth Day events. This provides community service opportunities for these organizations and benefits our city.*

## Waste

### **Recycling**

*We recycle 100% of our cardboard and our flexible plastic waste. This has reduced our annual solid waste contribution by more than 8 tons.*

### **Composting**

*We work with local farms to compost our eggshells, green waste and coffee grounds.*

## Energy

### Energy Efficiency

- *We have converted 100% of our lighting to LED.*
- *We use a programmable thermostat to load shed and schedule our lighting and HVAC energy usage.*

## Water

### Water Conservation

*We installed momentary/activated faucets in our restroom to conserve water usage.*

## Environmental Certification Programs, Awards, and Other Activities

- We received a Carroll County Environmental Action Award from the Carroll County Government in 2021 for our environmental leadership and practices.*

*Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.*
