Ecopreneurship and Peacebuilding Education for Youth
Member since April 2024

Management and Leadership

Environmental Policy Statement

Our mission: Our mission is to equip youth with ecopreneurial and peacebuilding skills to tackle the climate change and biodiversity loss crises.

Our vision: We envision a planet where communities thrive in harmony with nature, foster a peaceful coexistence, and sustain a vibrant, global ecosystem for current and future generations.

Environmentally Preferable Products and Services

We sell and share plants for ecological cause. One plant sale equals to 1 tree planting or 1 hour ecopreneurship or peacebuilding education sessions for underprivileged youth. We also ask our customers (we prefer to call them contributors) to return pots and other materials so that we can reuse/recycle/upcycle or compost.

Waste

Solid Waste Reduction and Reuse

- *Over 2000 nursery pots reused*
- *1 very old washer machine was upcycled to fire pit*
- *3 tire rims used for gardening*
- *1 old grill machine used for planting flowers*

Composting

- 500 lbs of food and yard waste composted
- 40 lbs of newspaper and cardboard boxes used for worm bed (red wigglers and European night crawlers)

Energy

Renewable Energy

Solar panel installed which generates approximately 7,000 kWh annually.

Transportation

Efficient Business Travel

- Over 90% of meetings are conducted virtually
- Bike or walk to local meetings

Water

Water Conservation

More than 20,000 gallons of water saved over 11 years from three rain barrels installed in the property.

Stormwater Management

- More than 20 trees and bushes planted to manage stormwater
- 100% natural, homemade, and handmade fertilizer/compost used for plants/trees/bushes

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
