Maryland Department of the Environment (MDE) Air Quality Planning Program Page

MDE's Air Quality Planning Program web page was the primary notice for this public hearing.

The screenshot shows the Maryland Department of the Environment's Air Quality Planning Program web page. The header features the MDE logo and the text "MARYLAND Department of the Environment". A left-hand navigation menu includes links for "Regulation Development", "Climate Change", "Air Quality Planning Home", and "Recent". The main content area is titled "Air Quality Planning Program" and contains the following text:

Maryland's Air Quality Planning Program (AQPP) writes state implementation plans and **regulations** to reduce emissions and achieve the **National Ambient Air Quality Standards (NAAQS)** for six "criteria" air pollutants: ground-level ozone, particulate matter, lead, carbon monoxide, nitrogen dioxide, and sulfur dioxide.

The AQPP consists of two divisions covering its different program areas:

- (1) Planning and Policy, and
- (2) Regulation Development

Planning and Policy: State Implementation Plans (SIPs)

The Planning and Policy Division develops State Implementation Plans (SIPs), inventories, and related reports which document how the state will attain and maintain the National Ambient Air Quality Standards, and prevent significant deterioration of air quality in areas cleaner than the standards.

Scheduled Hearings

All public hearings will be held virtually. All comment periods will remain open through the date and time of the scheduled public hearing.

4 MS. SALARANO: Good morning. On behalf of the
5 Department of the Environment and the Air and Radiation
6 Administration, I would like to welcome you to this
7 public hearing.

8 My name is Catherine Salarano, and I am a
9 Natural Resources Planner in the Air and Radiation
10 Administration, and I will serve as the hearing officer
11 for today's hearing.

12 This hearing concerns the Cecil County,
13 Maryland, Moderate Nonattainment Area 0.070 ppm 8-Hour
14 Ozone State Implementation Plan Attainment Demonstration.

15 The purpose of this hearing is to give you the
16 opportunity to comment on this State Implementation Plan
17 (SIP). The proposed SIP addresses Maryland's efforts and
18 accomplishments in reducing ozone levels in the state in
19 order to attain the federal standard of 70 parts per
20 billion, or ppb, by the attainment date established in
21 EPA's bump-up of the Philadelphia Nonattainment Area,
22 which includes Cecil County, Maryland, from marginal to
